Termékleírás

Riex ND60 (16/18mm) Set of 2 Square Railings This set of square railings is designed to reinforce the raised sides of ND60 drawers, ensuring stability and solid construction. Each railing includes brackets that securely snap onto the back panel and mount with screws, providing enhanced support for your storage solutions. The front section of the railing is fixed with screws and can be adjusted in length by rotating the bar, offering flexibility to fit various drawer sizes. Key Features: Secure Mounting: Includes back panel brackets for secure mounting and additional support. Adjustable Length: Adjustable railing length with a rotation mechanism for precise customisation. Enhanced Stability: Provides stability and durability, ensuring a strong structure for the drawer sides. This set offers a perfect combination of functionality and design, making it an essential addition to ND60 drawer systems.
